

# *SUMMARY OF PROBLEMS ENCOUNTERED AND HOW TO REMEDY THEM*

During the course of our project, we were confronted with multiple problems which will be mentioned below. Likewise, we have done our best not to be penalized for its obstacles:

- Understanding the project: it was difficult for us to clearly understand what was asked of us in the project directly after reading it. We needed a lot more reading and the help of our comrades to get a clear idea
- The distance between members of the corona virus pandemic group
- The handling and manipulation of databases

## *PROJECT SUMMARY INDICATING GAPS*

- Maven and JUnit

We are two days late; this delay is due to the various problems encountered during their implementations

- Modification of the submitted code

The time allocated for it was respected; the date specified in the provisional schedule has been respected.

- The establishment and use of warm server

This tools is software that has been submitted to us for database management But since it was essential for us to learn from this software and know the basics of comics; the timeframe for setting up the DB for our project has

- Diagrams

The time planned to make these diagrams was respected but the dates planned to generate them were not really respected

## *PERSONAL ASSESSMENT OF EACH GROUP MEMBER*

- PERSONAL ASSESSMENT: ANNAN GASSU

The "java" project I was subjected to was very exciting from start to finish. Despite the difficulty in clearly understanding what was involved in our work, in what to render. But after a good read, everything came back to light.

I had to work on the project hand and the diagrams

This project allowed me to gain as experience: the good grip of the git tools and a good view on the handling of java

- PERSONAL ASSESSMENT: Mouafo Cindy

- The "java" project to which I was subjected was very exciting from its beginning to its end. Despite the difficulty in clearly understanding what was involved in our work, in what to render. But after a good read, everything came back to light.

- I had to work on the Database, entity, controller

- This project allowed me to gain experience: the good grip of the git tools and a good view on the handling of java

- Denis Destin

The java project to which I was subjected was very interesting in the sense that I was able to make a "games !! Or I was thrilling from start to finish. Despite the difficulty in clearly understanding what was involved in our work, in what to render. But after a good read, everything came back to light.

I had to work on the view, contact of the project and the diagrams

This project allowed me to gain as experience: the good grip of the git tools and a good view on the handling of java

- OLIVAREX NZANGUE BALANCE SHEET

This JAVA project on the creation of a game was very interesting for me in the sense that I was able to lead to the creation of a game and to handle the Eclipse tools as it should be and I learned more.

COMPTE RENDU DES  
RÉUNIONS DE GROUPE

- Réunion du 28/05/2020

Cette réunion visait à ce que chaque membre du groupe prenne connaissance du cahier de charge, qu'ensemble nous élaborions un plan d'action et analysons les besoins et le partage des tâches.

- Réunion du 1/06/2020

Cette réunion visait à suivre l'avancer des tâches de chaque membre de groupe, l'explication par chaque membre de ce qui est au point.

- Réunion du 04/06/2020

Cette réunion visait à faire des tests sur le fonctionnement des différents serveurs et scripts et la rédaction des livrables.
